What the partnership involves

PROGRAMME TERMS

Start small, then reach 10 active clients by day 90.

The aim is to learn from live client work while giving your team a measured, supported rollout.

- 1 Name one person at the firm who owns the rollout.
- 2 Join one working session with Groot each month during the programme.
- 3 Bring 10 active clients onto Groot by day 90.
- 4 Record a simple before-and-after baseline so we can measure the change.
- 5 If the results are strong, work with us on a reference or case study.
